

# Jawad Haider

## Frontend Developer

Experienced Web Developer skilled in HTML, CSS, and creating user-friendly websites. Dedicated to delivering high-quality work, staying updated on trends, and meeting deadlines.

## Skills & Strengths

- Communication Skills
- Frontend
- Computer Network
- C++
- Microsoft Office
- DBMS

## Experience - Entry Level

### Front-end Intern

PEAK SOLUTIONS | May 2020 - Jun 2020

- Enhanced front-end development skills by working extensively with HTML and CSS.
- Designed and structured responsive web pages with clean, maintainable code.
- Improved website styling and layout to create visually appealing and user-friendly designs.
- Gained practical experience in front-end development through real-world tasks and projects.

## Projects

### Website Back-end System

DBMS | Jun 2024 - Jul 2024

Tools: My SQL

- Designed and implemented a back-end system for an e-commerce website using database management techniques.
- Created a structured database to efficiently store and manage user and client data.
- Developed functionality to handle product information, customer details, and purchase transactions securely.
- Ensured data integrity and optimized database performance for seamless user interactions.
- Strengthened skills in database design, SQL, and back-end development for real-world applications.

### Ultrasonic radar system

DLD | Jun 2024 - Jul 2024

- Designed and developed an ultrasonic radar system to detect motion using high-frequency sound waves.
- Programmed the system to emit ultrasonic waves and analyze returning echoes to identify objects and their movement.
- Integrated ultrasonic sensors and microcontrollers with a real-time display interface.
- Demonstrated applications in collision detection for cars, object tracking in aviation, and military surveillance systems.
- Enhanced technical skills by combining hardware components with software programming to solve real-world challenges.
